Altalune Sensual Oracle Cards are a divination tool rooted in the sensuous nature of your body & are here for your self love practice. They are also a lover & companion to any tarot deck. Use alone & as a sexy addition to any tarot reading. Tarot can be an incredible tool for unlocking our intuition or third eye. Get to know the cards by their name printed in the center of each card within the vulva shaped portal of 'Sheela Na Gig'. Pair with the clearly marked tarot card it represents and let your imagination, curiosity and spirit of exploration take over through the prompt on each Altalune Sensual Oracle Card. Decorate you and your lovers' bodies in Angela Mary Magick's tattoo flash art, to signal boost your sensuality.

Altalune Sensual Oracle Cards & Moon bb Magick Tarot are lovers & ready to support your body, mind and Spirit.

## Who are Altalune & Sheela

Altalune is a serpent in a love affair with Sheela Na Gig and the moon. They dance with one another sensuously on each of the first 48 cards in this 50 card divination deck. Placed in the center of each full color card we encounter wild & mysterious Sheela Na Gig and the moon phases constantly waxing and waning. Sheela Na Gig, is often thought to be a Celtic pre-Christian, pagan figure. Depicted in stone, these wild eyed carvings hold their squatting bodies, with legs and knees spread and vulva held wide open with both hands. Sheela Na Gig's stories are shrouded in mystery and radically vary depending on the scholar or Witch. These carved figures can still be found above churches throughout the UK.
